Employee Relations Values

1. We value accountability on the part of all employees, and believe that accountability is best achieved through mutual understanding of responsibilities and the commitment to execute. (Lack of accountability = organizational failure)

2. We value actions and decisions that are based on a full understanding of the facts that are presented. (Factual integrity)

3. We value the perspectives and interests of employee, supervisor and manager on employee relations issues, but we advocate for what is in the best interest of the organization. (Organizational interest, not personal advocacy)

4. We value supporting the agency in accomplishing its mission and objectives through high quality, timely service. (Support, Customer Service)

5. We value honest employee input, even if that input identifies significant deficiencies in the organization, and the presentation of that input without fear of retaliation. (Improvement comes with open discussion)

6. We value the professional, respectful and fair treatment of each employee regardless of circumstances. (Actions and decisions are business-related, not personal)

7. We value compliance with employment laws, but our actions are not driven by fear of the legal environment. (Value may entail some legal risk)

8. We value early intervention by supervisors when employee concerns are identified. (Pro-activity, prevention, confidence that problems will be addressed)

9. We value diversity in the workplace, while also valuing consistency of treatment for similar situations. (Variety in contributions, predictability in treatment)

10. As resources are limited, we value assignment of resources in a manner that maximizes the value added. (Screening process to identify issues without merit as quickly as possible)

11. Unless an offense requires immediate dismissal, we value a reasonable, fair opportunity for performance improvement. (Preserve resources if the employee commits to corrective action)
EXCERPTS FROM LEAVE POLICY

#1006

ANNUAL LEAVE

- Unless an emergency situation exists, employees must request and receive approval from their supervisors before using annual leave.
- Annual leave may be used for any purpose.
- Employees are responsible for planning time off well in advance and notifying their supervisors as soon as possible.
- Employees are not required to give specific reasons for requesting annual leave unless a situation such as the following applies: the leave is for an unscheduled or emergency absence, the DHS organizational unit is short staffed or has a major assignment pending, or the employees are under the restrictions of an Attendance Plan.
- Employees are required to use FLSA compensatory time before using annual leave.

SCHEDULING ANNUAL LEAVE

- Supervisors are responsible for scheduling annual leave. Should consider such factors as: work loads, deadlines, priorities, office coverage, and leave requested by other employees.
- Supervisors should make reasonable efforts to grant employees’ annual leave requests; however, supervisors are not required to grant requested annual leave when the leave would: disrupt work schedules, leave an office uncovered, inconvenience the work force or public, or contribute to employees' not meeting performance expectations.
- Emergency annual leave requests reviewed on a case-by-case basis; supervisors determine whether the absence will be charged to annual leave or unauthorized leave without pay.

SICK LEAVE

- Upon receiving supervisory approval, an employee may use sick leave for absences due to the following: Personal illness or disability; exposure to contagious disease, when attendance on duty would endanger the health of others; dental or medical care; and, dental or medical care, illness, accident or death in the immediate family which requires the employee’s presence. “Immediate family” includes the employee’s spouse, child, parent, brother and sister. “Immediate family” also includes any other person who resides in the employee’s house AND is recognized by law as a dependent of the employee.
- NOTE: Generally, sick leave due to the death of a family member should not exceed five (5) work days unless the employee is under the care of a health care provider due to a serious health condition (i.e., depression, etc.).
- Sick leave for medical or dental care should be limited to the time necessary for the appointment(s) and related travel.
- Employees who are injured/ill for at least three (3) work days during a period of annual leave may substitute sick leave for annual leave during the period of injury/illness.
- In order to substitute sick leave for annual leave, employees must submit a request to their supervisor within two (2) weeks of returning to work.
- A statement from their health care provider that justifies the use of sick leave may be required.
- Employees who are receiving Short-term or Long-term Disability Insurance benefits through the Flexible Benefits Program cannot use sick leave at the same time.
• (Employees may use sick leave during the qualifying period.) Employees must request to use annual or personal leave or request to be placed in a leave without pay status in order to receive Short-term or Long-term Disability Insurance payments.
• Employees may request to use FLSA compensatory time in lieu of sick leave. Employees are not, however, required to use FLSA compensatory time prior to sick leave.

SICK LEAVE REQUESTS
• Employees are to contact their supervisor or other designated official as soon as possible when sick leave is needed. When employees are incapacitated, supervisors may accept calls regarding the employees' status from other individuals.
• DHS organizational units may establish procedures for requesting use of sick leave. Employees may be required to report each day by telephone to their supervisor or other designated official and to provide satisfactory evidence for use of sick leave.
  o Satisfactory evidence may include a CERTIFICATION OF SERIOUS HEALTH CONDITION Form, or other medical statement with similar information, completed by the attending health care provider when the reason for leave qualifies as a serious health condition under family and medical leave.
• Employees cannot be required to provide evidence for use of fewer than 17 hours of sick leave in a 30 calendar day period, unless they have demonstrated excessive or abusive use of sick leave.
• Excessive and/or abusive use of sick leave is considered a pattern of intermittent, short-term use of sick leave. Establishment of this pattern includes, but is not limited to:
  o Frequent use of sick leave in conjunction with holidays, scheduled off days or distribution of pay checks;
  o Frequent use of sick leave when scheduled for undesirable temporary shifts or assignments, or during periods of peak work load;
  o Requesting sick leave for an absence for which annual leave has previously been denied;
  o Frequent occurrences of illness during the work day;
  o Peculiar and increasingly improbable excuses;
  o Repetitive use of fewer than 17 hours of sick leave in 30 calendar day periods;
  o Prior written notification of failure to adhere to procedures for approval of leave, inappropriate attendance, or inappropriate use of leave (e.g., Attendance Plan).

SICK LEAVE DENIAL
• Sick leave may be denied for reasons including, but not limited to, the following:
  o Excessive or abusive use of sick leave
  o Failure to follow procedures for reporting the absence or requesting the use of leave; or,
  o Falsification of documents (falsification of documents should result in disciplinary action)
  o Supervisors should carefully review the request prior to denying the sick leave, and should be able to support the decision to deny the request

PERSONAL LEAVE
• Normally, employees will need to provide at least 24 hours advance notice of intent to use personal leave.
• Employees are not required to give specific reasons for requesting personal leave, unless a situation such as the following applies:
  o The leave is for an unscheduled/emergency absence,
  o The DHS organizational unit is short staffed or has a major assignment pending,
  o The employees are under the restrictions on an Attendance Plan.
• Supervisors must make every reasonable effort to grant requests for personal leave

TO: __________

From: __________

Subject: Attendance Plan

Based on a careful review of your attendance record, I have concluded that you have established a pattern of excessive/abusive use of leave. I have also determined that your excessive use of leave has had, and continues to have, a serious detrimental effect on the operation of the department. As a result, the following expectations and standards are effective immediately, until further notice.

1. Sick leave will be approved only if the following conditions are fully satisfied:

   a. You must comply with the following procedure for reporting your absence.

      In the event that you are absent from work due to an illness, you must speak to me personally or to ________ to report your illness by ______ on the day of your illness. Messages left with other staff members are not acceptable. Upon your return to work, you must provide a note from your doctor.

   b. You must supply a statement from your physician verifying that you were seen by a doctor or other appropriate health care provider, and that, for the specific period of absence, you were unable to perform your assigned duties, or that your presence was required due to the illness, accident, death, or medical care of a member of your immediate family, as defined in DHS HR/Personnel Policy #1006. This statement should be the original, not a copy.

   c. The statement described in paragraph b., above, must be submitted to __________ on the first day that you work following the absence in question.
2. If you have exhausted sick leave, annual leave will no longer be approved on a routine basis for absences relating to illness. You must comply with the terms outlined in Section 1, Subsections a, b and c, above.

3. Annual leave may be requested in advance, but approval will be at the discretion of the supervisor and will be contingent on the needs of the unit, unit coverage, the pattern of prior absenteeism, the status of your work and your consistent compliance with all unit rules, practices, policies and standards.

4. Unscheduled annual leave will be approved only for emergency circumstances. Whether a particular situation constitutes an emergency will be determined by me on a case-by-case basis.

5. All unapproved absences will result in unauthorized leave without pay. Instances of unauthorized leave without pay are grounds for disciplinary action.

6. If you have exhausted sick and annual leave, additional absence will be regarded as unauthorized leave without pay, unless your absence has been approved as family and medical leave under FMLA.

You are hereby warned that failure to follow the terms of this attendance plan will result in your being placed on unauthorized leave without pay and subject to appropriate disciplinary action, up to and including separation from employment.

Please see me immediately should you have questions regarding this attendance plan.

PROGRESSIVE DISCIPLINE BASICS
Excerpts from #1601 and #1602

GENERAL GUIDELINES
Supervisors have a responsibility to inform employees about job expectations and any relevant information that will assist employees in carrying out job duties. Employees have a responsibility to satisfactorily perform job duties and be familiar with the rules, policies and standards of the workplace.

All rules, policies and standards should be consistently enforced. Consistency in enforcement does not mean that the penalty for violation must be precisely the same in every instance. The penalty may vary because of the severity of the offense, presence or absence of intent, the previous work record of the employee or other relevant factors. Similar situations should be handled in a similar manner.

Supervisors and employees should be aware that it is not necessary or required that every step of progressive discipline be followed in every situation. Over a period of time, it may be appropriate to use several approaches to address an employee’s problem(s). Some situations, on the other hand, require immediate dismissal or separation.

When a violation of a rule, policy or standard occurs, supervisors should:

- Research the facts and circumstances before deciding on the appropriate disciplinary action.
- In a minor case, a one-time observation may be a sufficient basis for determining the type of disciplinary action that should be taken.
- In a serious case, an extensive investigation may be necessary to determine the full extent of the offense before deciding on the type of disciplinary action.
- Determine the appropriate disciplinary action by considering several factors including but not limited to: the seriousness of the offense; whether it was deliberate or unintentional; the employee’s work record of behavior and performance; and, applicable rules, policies and standards.
- Take appropriate action promptly, observing the correct procedural requirements.

GROUNDS FOR DISCIPLINARY ACTIONS
- Negligence or inefficiency in performing assigned duties;
- Inability or unfitness to perform assigned duties;
- Insubordination;
- Misconduct;
• Conduct reflecting discredit on the department;
• Commission of a felony or other crime involving moral turpitude;
• Chronic tardiness or absenteeism;
• Failure to report for or remain at work without justifiable cause;
• Failure to process performance appraisals in a timely manner; or
• Political activity in violation of the Rules of the State Personnel Board - Rule 3.

CORRECTIVE ACTIONS

• Attendance Plan - In cases where an employee does not meet attendance requirements (e.g., chronic tardiness, absenteeism or abuse of leave), a formal Attendance Plan may be implemented which outlines specific expectations required of the employee, including documentation of absences. If attendance standards are not met, disciplinary action may be taken.
• Unauthorized Leave Without Pay - An employee who is absent without approval of the supervisor may be placed on Unauthorized Leave Without Pay for the period of absence, up to a maximum of fifteen (15) calendar days. This unauthorized absence may be used as a basis for disciplinary action.
• Work Plan - A Work Plan is a written statement of specific work expectations. The plan is designed to give the employee the opportunity to raise performance to an acceptable level. If performance standards are not met, disciplinary action may be taken.
• Memo of Concern and Expectations - A Memo of Concern and Expectations may be issued to an employee to outline concerns with the employee’s current behavior and/or performance. The letter should indicate the improvement(s) expected.
• Denial of Salary Increase - An employee who receives an overall performance evaluation rating of “Did Not Meet Expectations” in either the Responsibilities section or the Terms & Conditions section of the PMF will not receive a performance based salary increase.

SUSPENSIONS WITH PAY

While it is not a disciplinary action, a Suspension with Pay may often precede or accompany a disciplinary action. With the approval of OHRMD, this is used as follows:

• During an investigation of alleged misconduct.
• During the period of notice of separation while on working test, reduction in force, or proposed adverse action.
• During the period between the arrest or indictment of the employee on a criminal charge and the disposition of the charge.
• For alleged unfitness to perform assigned duties where the alleged unfitness creates the potential for harm to the employee, co-workers, or others.
DISCIPLINARY ACTIONS

Reprimand - a written reprimand or a written reprimand/final warning may be issued to an employee due to significant or continuing inappropriate behavior or performance deficiencies. Reprimands should contain: the date, time and/or place of the inappropriate behavior or performance deficiency; a description of the behavior or deficiency; future expectations of the employee; and, the consequences should the inappropriate behavior or performance deficiency continue. Classified employees may request a reprimand review.

Suspension without pay - employees may be suspended without pay for disciplinary purposes. The timeframe for a Suspension without Pay for disciplinary purposes should be appropriate for the offense and cannot exceed thirty (30) calendar days. Suspensions without pay are primarily used for classified employees who may appeal these actions to the State Personnel Board. For FLSA exempt employees, Suspensions without Pay must be administered in full FLSA work periods and cannot cover parts of two (2) FLSA work periods. (used primarily in classified service)

Salary Reduction - Salaries of FLSA non-exempt employees may be reduced for disciplinary purposes. Salary as a result of Disciplinary Salary Reduction should be reduced by an amount equal to at least five percent (5%), and should normally be in increments of 5%. A Disciplinary Salary Reduction may be permanent, indefinite or for a specified period of time conditional upon the employee’s achievement of fully satisfactory performance and appropriate/acceptable behavior. Disciplinary Salary Reductions cannot be taken against FLSA exempt employees due to provisions of the Fair Labor Standards Act. (used primarily in classified service)

Demotion - Employees may be involuntarily demoted to a lower job for disciplinary reasons. The salary of an employee who is involuntarily demoted is to be reduced by an amount equal to at least five percent (5%). The salary cannot be less than the job minimum or exceed the pay grade maximum for the job to which the employee is demoted.

Dismissal/Separation - Employees may be dismissed (classified) or separated (unclassified) when all other courses of action have been unsuccessful or when the situation is so serious that termination is necessary. Dismissal/Separation is required in certain situations, including but not limited to, drug or alcohol testing violations, criminal history records, criminal drug offenses, etc.

ADVERSE ACTIONS

Suspension without pay, disciplinary salary reduction, demotion and dismissal are considered adverse actions. (Other than demotion and the fact that unclassified employees are separated, not dismissed), these actions are used primarily for classified employees and may be appealed to the State Personnel Board by classified employees. The Rules of the State Personnel Board outline specific procedural requirements for Adverse Actions for classified employees. The appropriate OHRMD Regional Manager must be consulted in advance to discuss and determine the appropriate Adverse Action.

This unauthorized absence may be used as a basis for disciplinary action.

FAIR LABOR STANDARDS ACT (FLSA)
FACT SHEET FOR DHS EMPLOYEES

Refer to DHS Human Resource/Personnel Policy # 1001 available on the OHRMD Section of:
http://www.odis.dhr.state.ga.us

- **FLSA** is a Federal law and an employee entitlement. Failure to comply with the FLSA may result in considerable liability to the department.
- Both employees and supervisors/managers should be evaluated on their PMF for compliance with the FLSA.
- Non-exempt employees are eligible to earn time and a half compensatory time for hours *actually worked* in excess of 40 hours during their designated 7 day FLSA work period. (Exempt employees do not earn FLSA or State comp time).
- The work period is not the same as the work week or the pay period. A work period may be, for example, from Tuesday at 5:00 PM to the next Tuesday at 4:59 PM. Different units or groups of employees may have different FLSA work periods depending on their job assignments and work schedules.
- All non-exempt employees must keep accurate time sheets recording *all time* worked, entering starting, ending and meal break times at the exact time that they occurred. Time sheets should be completed to the minute and not rounded off.
- All time at the work station, work done at home, work done on meal breaks, unapproved overtime, work done on the employee’s “own time” or at the “employee’s choice” and all other work “suffered or permitted by the employer” (even if it has not been required or requested) is considered work time and must be accurately recorded.
- It is permissible for supervisors to allow employees to “flex out” their time *within the work period* in order to prevent them from earning overtime. Employees should not “flex out” without permission and it must be within the same work period.
- Meal periods must be taken away from the work station, last for a minimum of 30 uninterrupted minutes and be free from all work duties in order to be recorded as non-work time.
- Permission to earn overtime should be requested in advance, but if unapproved overtime is worked it must be recorded on the time sheet and it will be compensated. Employees who work unnecessary overtime without permission are subject to disciplinary action.
- Any available FLSA Compensatory Time *must* be used in lieu of annual leave and *may* be used in lieu of sick leave

**FLSA Definitions of Time Worked (Time which must be recorded on time sheet)**
Anything that an employee does that benefits the department or serves a client, no matter when, why or where the employee does it (or whether or not the employee has been told to do it) is generally considered to be work time. This includes:
1. All time worked, to the minute
2. Any unauthorized over time, overtime worked which is not approved in advance, overtime worked without the supervisor’s knowledge
3. Being present at the work station regardless of whether the employee is actually performing work duties
4. Traveling from the office to other work sites, traveling between home visits and work related appointments
5. After hours telephone calls from clients or calls related to work taken away from the office
6. Work done at home, including documentation or studying required training materials
7. Skipped meal breaks or meal breaks not taken away from the work station, not lasting at least 30 uninterrupted minutes and/or not free of all job duties
8. Job related travel other than commuting to and from work (travel associated with a one-day assignment at a different location must be considered time worked to the extent that the travel exceeds the time spent in the non-exempt employee’s normal travel between home and work)
9. Being on call if actual calls are so frequent or the on-call conditions are so restrictive that non-exempt employees are not free to use the intervening periods effectively for personal benefit
10. All time spent actually performing work while on call no matter how brief

Special Points of Emphasis:
- FLSA Regulations make no distinction between approved and unapproved overtime. Both are compensable. However, employees may be disciplined for working over time without approval even though they must be compensated for all time worked.
- All time that an employee is at the work station (generally considered the desk, the computer, the phone or the car being used for work related travel), whether the employee is actually working or not, is considered to be work time.
- Employees do not have a “choice” to work without compensation. They must be compensated for any time which the FLSA regulations define as work time.
- FLSA Compensatory time at time and a half is earned only when the employee physically works more than 40 hours during the established work period (the designated 7 day (168 hour) period that begins and ends the FLSA work week).
- The work period does not have to correspond to the calendar week. Flexing out in order to avoid overtime must be done within the same established work period.
- Although FLSA does not require that a lunch break be given, the lunch break, if given, is unpaid time and subject to FLSA Regulations. This break must:
  - Last a minimum of 30 uninterrupted minutes (less than 30 minutes does not count at all, lunch break starts over if it is interrupted)
  - Be away from the work station (generally considered the desk, the computer, the phone or the car being used for work related travel)
  - Be completely free from all work duties
- Use of FLSA Compensatory Time: the US Department of Labor has consistently interpreted its regulations as requiring employers to allow employees to use their comp time on the specified date(s) requested unless doing so would unduly interfere with the employer’s operations.

FLSA regulations prohibit retaliation against employees who exercise their rights under the Fair Labor Standards Act

Employee Relations Best Practices

Communicate and Document

- **Nip it in the bud!** Intervene early to correct problems when they first occur.
- **Tell it like it is!** Give on-going clear direction and feedback and have open lines of communication.
- **Warn the employee!** Let employee know consequences for poor performance.
- **Write it down! (and date it)** If it is not documented, it's hard to show it happened.
- **Use the annual and interim performance evaluations system!** Do timely plans and evaluations with specific expectations and standards. Be consistent with disciplinary actions. Do regular interim evaluations on employees with continual problems.

Carefully Consider

- **Remember our mission and goals!** Always assess what the consequences of the behavior are or could be to our clients and families.
- **Operate out of DHS Employee Relations values!** Keep focused on our stated values for employee relations.
- **Every case is different!** Treat employees consistently but not exactly the same. Look at evaluations, prior corrective/disciplinary action, mitigating circumstances, evidence of intent, and length of employment.
- **What did you do before?** Consider agency history and precedents for the treatment of the same problem with employees who have a similar work history.
- **Let the punishment fit the crime!** Always consider the nature of the offense before determining the appropriate level of discipline.

Take Action

- **Call us early and often!** Consult with OHRMD Regional Manager.
- **Be Thorough!** Be sure to discover all the facts before acting. Get written statements from witnesses.
- **Do it promptly!** Timely disciplinary action is the most effective.
- **Be progressive!** Use progressive discipline when appropriate; move through the process quickly if expectations are not met after adequate opportunity to correct behavior has been given.
- **Be Aware!** Consistently follow up on directives and instructions and monitor behavior of employees.
