Georgia Division of Family and Children Services Afterschool Care Program Statement of Need (SoN) Overview

The Afterschool Care Program is located within the Georgia Division of Family and Children Services (DFCS), Well-Being Services Section. The Georgia Division of Family and Children Services investigates child abuse; provides foster homes for abused and neglected children; assists low to moderate income families by providing financial assistance; provides support to families seeking childcare assistance; and provides many other numerous support services to assist and support families in need. In an effort to continue to support DFCS' broader goal of being a resource to families by promoting self-sufficiency and independence, the Afterschool Care Program provides federal funding to non-profit organizations and public agencies who serve youth and families during the out-of-school time. By funding positive youth development programs and services that are provided during before school, after school, intercession and summer hours, the Afterschool Care Program also supports two Temporary Assistance for Needy Families (TANF) goals: (a) End the dependency of needy parents on government benefits by promoting job preparation, work, and marriage and (b) Prevent and reduce the incidence of out-of-wedlock pregnancies.

The mission of the Afterschool Care Program is to provide resources to youth-serving organizations within the state of Georgia who serve families within low-to-moderate income communities and the foster care system. The vision of the Afterschool Care Program is to ensure every child and youth has access to high quality positive youth development programming within their community. Academic attainment and an enhanced well-being through positive youth development services are key factors in ensuring youth successfully transition into young adulthood, particularly youth of economically disadvantaged communities. Through out-of-school time programs, parents and caregivers can ensure their youth have a safe and enriching environment when the traditional school day ends. By providing funding through a Statement of Need (SoN) solicitation process, DFCS partners with community-based organizations and public agencies throughout the state of Georgia who provide services to youth and their families.

The goals of the DFCS Afterschool Care Program are to:

- Strengthen youth-serving organizations and institutions by providing funding that increases their capacity to design, implement, and sustain quality youth development programs and services;
- Provide opportunities for youth to establish positive relationships with their peers and caring adults during traditional non-school day hours; and
- Provide technical assistance to organizations and agencies as they implement services and activities that support their youth's overall well-being as they prepare for and transition into young adulthood.

This Statement of Need (SoN) has been issued by the Georgia Division of Family and Children Services Afterschool Care Program to seek proposals from non-profit organizations and public agencies that provide quality out-of-school time positive youth development programs and services to youth between the ages of 5 and 17. Out-of-school time programs funded through this SoN must serve youth and families within low-to-moderate income communities and the foster care system within the state of Georgia based on the eligibility guidelines outlined. The Georgia Department of Human Services, Division of Family and Children Services and Afterschool Care Program reserve the right to make any updates or omissions to this SoN while it is posted and reserve the right to cancel this SoN at any time. Additionally, the DFCS Afterschool Care Program reserves the right to reject any or all proposals upon review and evaluation.

NOTICE FOR CURRENT CONTRACTORS: All current Federal Fiscal Year (FFY) 2021 contractors of the DFCS Afterschool Care Program MUST respond to this SoN based on the guidelines herein if seeking consideration for funding for FFY 2022. Non-profit organizations, state and local government agencies, schools/school systems and other public entities may apply to this Statement of need. Agencies that are listed on the DHS delinquent audit list and/or not identified on the State of Georgia Secretary of State website as "Active/Compliance" are considered ineligible for funding. The Georgia Department of Human Services, Division of Family and Children Services and Afterschool Care Program reserve the right to make any updates or omissions to this SoN while it is posted and reserve the right to cancel this SoN at any time. Additionally, the DFCS Afterschool Care Program reserves the right to reject any or all proposals upon review and evaluation.

NOTICE FOR CURRENT CONTRACTORS: All current Federal Fiscal Year (FFY) 2021 contractors of the DFCS Afterschool Care Program MUST respond to this SoN based on the guidelines herein if seeking consideration for funding for FFY 2022. A prior award or current contract with DHS/DFCS is not a guarantee or commitment for continued or future funding.

Use of Funds

The funds awarded to agencies are to be used according to the guidelines within this SoN for the delivery of positive youth development services to youth and families in the following programs:

Before School Programs - Before school programs are programs and services provided to youth and families before the traditional school day has begun.

After School Programs - After school programs are programs and services provided to youth after the traditional school day has ended. These programs also include services provided on non-school days such as Saturday and Sunday.

Summer Programs - Summer programs are programs and services provided to youth during the summer months when the traditional academic teaching and learning is not in session. These months may include May, June, July and/or August.

Intercession Programs - Intercession Programs are programs and services provided to youth during the holiday and academic recess(es) when the traditional academic teaching and learning is not in session.

SUPPLANTING NOTICE: Awardees must use program funds to supplement, not supplant, other Federal, state, local, or non-Federal funds or existing out-of-school time programs. Therefore, DFCS Afterschool Care Program funds cannot be used to support or replace existing programs, activities and/or services. Funds must be used for new populations and/or new programs and services.

Cash/In-Kind Match

The DFCS Afterschool Care Program has a mandatory cost-sharing requirement, which can be met through a combination of cash and in-kind contributions. All agencies must provide at least a one-to-one (1:1) non-federal match contribution (at least 50% of the total cost of proposed services must be cash/in-kind match). If awarded funding, the value of the contract will be the sum total of the DFCS awarded funding and the contractor’s committed and certified non-federal match contribution.

All funded agencies will be required to provide a non-federal category match of 1, 2, or 3 as detailed below. As previously stated, the value of a contract will be the sum total of the DFCS awarded funding and the contractor’s committed and certified non-federal match contribution.

Match Level Category	Required Dollar for Dollar Match	Funding Request and Award Threshold
1	1:1 (Agency – \$1: DHS – \$1)	< or = 200,000.00
2	1.5:1 (Agency – \$1.5:DHS – \$1)	200,001.00 – 1,000,000.00
3	3:1 (Agency – \$3: DHS – \$1)	1,000,001.00 – 8,000,000.00

Example:

Your organization is requesting a DFCS Afterschool Care Program award of \$50,000. If awarded \$50,000, your organization’s required certified non-federal match contribution would be \$50,000 and the total contract value would be \$100,000.

The match provided by the agency must be allocated based on each individual eligible youth served (see *Youth Served* on Page 5 of this SoN). If the program is serving all eligible youth, all certified costs (like the donated value of space) used as match can be documented. If the program is serving a percentage of eligible youth, costs should be allocated appropriately. For example, if an organization/agency serves 50% eligible youth, and has \$10,000 in donated space for the entire program of eligible and ineligible youth, only \$5,000 in donated space costs can be used match costs. The agency must allocate costs based the on percentage of eligible youth served.

Award Limits

Agencies may submit a proposal for their total cost of proposed services. The DFCS Afterschool Care Program will determine the final amount each selected organization is awarded based on the agency’s proposed services and

cash/in-kind match level ability. Funding will also be based on the DFCS Afterschool Care Program geographic areas of need, funding availability and the SoN evaluation criteria. Additionally, the Division is interested in developing a vast network of funded service providers among a diverse group that will cover the 14 DFCS regions of the state. **APPENDIX B** identifies DFCS regions and the counties that comprise each region. Funding availability, geographic location and programmatic need to serve particular areas within the state of Georgia will determine the number of service providers that will be awarded contracts.

State Priority

Funding priority will be awarded for those agencies that meet certain priority need criteria listed below. Priority will be given by adding additional points to proposals meeting these criteria.

Funding from the DFCS Afterschool Care Program is not guaranteed each year. To continue to provide quality youth development programming, agencies must have an active capacity building and sustainability plan and effort in progress. An agency's sustainability is their ability to continue to meet the needs of the youth, families and communities they serve, even with challenging circumstances and during difficult times.

An agency's or organization's ability to build capacity is the process of developing and expanding its mission, strategy, skills, infrastructure and human resources to better serve its clients, customers, and community. According to the Corporation for National and Community Service, "...to foster and sustain effective programs, organizations must be both viable and well-managed. Regardless of how imaginative a program's design may be, its effectiveness will be largely dependent on a variety of other factors, including the skill of the organization in implementing the program, its financial viability, its capacity to establish effective quality controls, its ability to measure program performance, its skill in creating partnerships and mobilizing volunteers and resources for its activities, and its ability to provide various forms of administrative support. ...Therefore, capacity building is

essential to the sustainability of programs and sponsoring organizations so they can continue to meet community needs efficiently and effectively.”

Proposing agency should describe in detail the information below:

Sustainability – Describe the agency’s plan for sustainability and capacity building. The plan can include, but is not limited to, current and future objectives and goals, current planning that is in process, benchmarks for success, timeline(s) and community and national partners that will be utilized for strengths-building and/or expansion.

The LOC must be submitted on official letterhead and should articulate the nature of proposed collaboration and level of support. All letters of Commitment must be included within the

Agencies are encouraged to build and expand collaborative relationships with strategic partners to achieve greater program impact and sustainability, maximize partnerships with other agencies and organizations to avoid duplication of efforts and to leverage funding.

Section V: Financial Proposal and Budget Documents

A budget narrative, Financial Capacity Worksheet, Financial Proposal and Budget - Form 1, and Financial Proposal and Budget - Form 2 are required as part of an agency's financial proposal submission. For the purposes of this SoN, the Budget Period is defined as: October 1, 2021 to September 30, 2022.

The Proposing Agency should submit a Budget Narrative including the following information:

- a. How the items within the submitted financial proposal support the goals of the programs and services that will be provided.
- b. How the total costs indicated on the Financial Proposal and Budget – Form 2 are reasonable and necessary in relation to the number of participants to be served, to the scope of the programs and services, and their anticipated outcomes.
- c. How the requested funds were allocated for accomplishing tasks and activities described within the proposal.
- d. How DFCS Afterschool Care Program funds will supplement and not supplant other Federal, state, and local funds

The budget narrative must thoroughly describe how the proposed categorical costs are derived. When developing the justification for the budget narrative, agencies should consider whether the proposed budget is reasonable and consistent with the purpose, outcomes, and program implementation plan outlined within their proposal. Agencies must also ensure the budget is appropriate in relation to the proposed activities, reasonable, clearly justified, and consistent with the intended use of funds.

Additional Information Regarding Expenses and Budget Justification

Budget Amounts:

Overall budget requests should be submitted as whole numbers. When calculating budgetary needs, please round up to the nearest whole number before submitting with the proposal.

Training and Professional Development:

The Program Director or any other individual serving in an administrative role shall not be an existing superintendent, principal, transportation director, CEO, or CFO whose salary will be reclassified to conduct DFCS Afterschool Care Program activities. All salaries and wages must be consistent with the policies and procedures of the applying agency. **All salaries and hourly wages** must also be consistent with the demographic area of the proposed programs and services (<http://www.bls.gov/oes/>).

Supplement, not Supplant:

As general guidance in completing this section of the application, it is important to understand that awardees must use program funds to **supplement**, not supplant, other Federal, state, local, or non-Federal funds or existing out of school time programs. Therefore, DFCS Afterschool Care Program funds cannot be used to support or replace existing programs, activities and/or services. Funds must be used for new populations and/or new programs and services. Funds must be used to increase program services. The budget and program narratives must align. Regardless of the funding amount, proposed costs must be **reasonable, necessary and allocable** to carry out the program and service’s purpose and objectives.

Parameters of Awarded Funding:

Agencies awarded funding must use funds for allowable costs only during the contract period of October 1, 2021 (or date contract is fully executed) – September 30, 2022. For example, an agency may enter into a contract with a service occurring within the contract award period. Costs occurring outside the contract award period are the responsibility of the agency. If awarded funding, costs are not allowed to be expended until the execution date listed on the awarded contract. Whether direct or indirect, all costs must be allowable, allocable, reasonable and necessary under this funding announcement.

The DFCS Afterschool Care Program will determine the final amount each selected agency is awarded based on the organization’s proposed services and cash/in-kind match level ability. Funding will also be based on the DFCS Afterschool Care Program geographic areas of need, funding availability and the SoN evaluation criteria. In addition to the awarded funding, the DFCS Afterschool Care Program has a mandatory cost-sharing requirement, which can be met through a combination of cash and in-kind contributions. All agencies must provide at least a one-to-one (1:1) non-federal match contribution (at least 50% of the total cost of proposed services must be cash/in-kind match). If awarded funding, the value of the contract will be the sum total of the DFCS Afterschool Care Program awarded funding and the contractor’s committed and certified non-federal match contribution.

All funded agencies will be required to provide a non-federal category match of 1, 2, or 3 as detailed below. As previously stated, the value of a contract will be the sum total of the DHS awarded funding and the contractor’s committed and certified non-federal match contribution.

Match Level Category	Required Dollar for Dollar Match	Funding Request and Award Threshold
1	1:1 (Agency – \$1: DHS – \$1)	< or = 200,000.00
2	1.5:1 (Agency – \$1.5:DHS – \$1)	200,001.00 – 1,000,000.00
3	3:1 (Agency – \$3: DHS – \$1)	1,000,001.00 – 8,000,000.00

Example:

Your organization is requesting a DHS DFCS Afterschool Care Program award of \$50,000. If awarded \$50,000, your organization’s required non-federal match contribution would be \$50,000 and the total contract value would be \$100,000.

The match provided by the agency must be allocated based on each individual eligible youth served (see *Youth Served* on Page 5 of this SoN). If the program is serving all eligible youth, all certified costs (like the donated value of space) used as match can be documented. If the program is serving a percentage of eligible youth, costs should be allocated appropriately. For example, if an organization/agency serves 50% eligible youth, and has \$10,000 in donated space for the entire program of eligible and ineligible youth, only \$5,000 in donated space costs can be used match costs. The agency must allocate costs based the on percentage of eligible youth served. Additional information about valuing and documenting match and eligible uses of funds may be found in **APPENDIX F**.

IMPORTANT NOTICE: Awarded agencies may have to adjust their proposed services based on the final funding award. Any and all adjustments will occur during the Contract Consultation process.

Section VI: Contract Award

The DHS contract amount will be the total of the DHS awarded funding **and** the committed and certified non-federal match contribution.

All programs will be required to provide a non-federal category match of 1, 2, or 3 as detailed below. As previously stated, the value of a contract will be the sum total of the DHS awarded funding and the contractors’ committed and certified non-federal match contribution.

Category	Required Dollar for Dollar Match	Financial Award Threshold
1	1:1	< or = 200,000.00
2	1.5:1	200,001.00 – 1,000,000.00
3	3:1	1,000,001.00 – 8,000,000.00

Match contributions will be used by the Georgia Department of Human Services towards its *Maintenance of Effort (MOE)* requirement for the TANF block grant. All match contributions **must meet** the following requirements:

- The matching funds cannot reflect funding received from any other federal source;
- The matching funds cannot have been used previously or currently to satisfy the cost-sharing or matching requirement of another Federal Program;
- The matching funds cannot be used to match federal welfare-to-work requirements; and
- The match cannot be used to meet prior-year expenses.

Additional match requirements for DFCS Afterschool Care Program contractors are as followed:

1. Organizations must have the ability to track and/or allocate revenues and expenses by program.
2. Organizations must have the ability to track all participants in their DFCS funded programs and determine those program participants who meet the eligibility requirements as described in the Afterschool Care Program contract with DHS.
3. Only Non-federally supported costs (match) can be counted towards MOE.
4. Costs used as MOE for matching purposes on another agreement cannot also be used for MOE purposes on the DFCS Afterschool Care Program contract.
5. MOE costs must be allocated to the DFCS Afterschool Care Program contract in accordance with the percentage of eligible participants served to total participants served during the month. (Note: Also, see #7 below).

6. Costs related to educational activities or services that the State makes generally available to its residents without cost and without regard to their income (such as the Georgia Pre-Kindergarten Program) cannot be counted as MOE under the DFCS Afterschool Care Program contract.
7. The pool of eligible MOE costs must be adjusted or reduced by:
 - a. fees collected from eligible families for participation in the program
 - b. money received from DFCS for child care assistance for eligible families; and
 - c. money received from the Georgia Department of Early Care and Learning (DECAL) as reimbursement for quality improvements and transportation expenses for eligible families.

MAKING YOUR MATCH

The match dollars can be made in many different ways and can come from cash contributions or in-kind resources. Any non-federal dollars you spend to service income-eligible youth during the summer will count toward meeting the match requirement. Following are examples of **eligible match** expenses:

- The use of building and facility space
- Rent expense
- The use of vehicles for transporting students
- The maintenance expenses for vehicles
- The use of supplies and materials
- The use of equipment such as existing computers, phones, laminating machines, fax machines, copy machines
- Internet expenses
- The costs of electricity, natural gas, fuel oil, water and sewage charges
- The costs associated with providing participants with a healthy snack option
- Teacher salaries and fringe benefits, per diem costs, fees and contract costs
- Marketing/Communications costs

In-kind contributions will also count. Examples of in-kind resources are the use of volunteer time, the use of donated supplies, vehicles, space and equipment. For guidelines on how to value in-kind donations, see the section below, *Valuing Your Match*.

VALUING YOUR MATCH

The DFCS Afterschool Care Program requires that funded programs provide at least a 50% non-federal cash and/or in-kind match to DHS funds. If the contractor fails to obtain and document the required match, a disallowance of Federal funds may be taken. Non-Federal share must meet the same criteria for Allowability as other costs incurred and paid with Federal funds.

The match provided by the contractor must be based on each individual TANF/TANF eligible youth served. If the program is serving all TANF/TANF eligible youth, all certified non-direct costs (like the donated value of space) used as match can be documented. If the program is serving a percentage of TANF/TANF eligible youth, non-direct costs should be allocated appropriately. For example, if an organization/agency serves 50% TANF/TANF eligible youth and has \$10,000 in donated space for the

entire program of eligible and ineligible youth, only \$5,000 in donated space costs is appropriate non-direct costs that can be used match. The contractor must allocate non-direct costs based the on percentage of TANF/TANF eligible youth served.

This Guide covers the following subjects: Match Requirements, Definitions, Allowability, Cash Match, Documentations, Volunteer Services, Donations of Supplies, Donated Equipment, Donated Land and Buildings, Loaned Equipment or Space, Potential Disallowances, and Audit Requirements.

Definitions:

Allowable Cost

Third party in-kind contributions shall count toward satisfying a cost-sharing or matching requirement only where, if the party receiving the contributions were to pay for them, they would be an allowable cost. Allowable costs are determined by the tests of reasonableness, necessity and allowability as defined in Office of Management and Budget (OMB) Circulars A-2, A-87 and A-122.

Cash Contributions

The contractor's cash outlay, which is generated by the contractor or donated by a third party and is expended to fund allowable program costs. Cash match counts toward the non-federal share requirement when expended, not when donated to or generated by the Contractor.

Documentation

Written proof that a service has been provided or a donation has been received. Examples include receipts, timecards, and invoices or proof of payment.

In-Kind

Property or services that benefit a grant-supported project or program and are contributed by non-federal third parties without charge to the contractor. In-kind contributions may consist of the value of real property and equipment and the value of goods and services directly benefiting the DHS funded program and specifically identifiable to it. In-kind match is counted for the period when the services are provided or when the donated goods are received and used.

Non-Direct Costs

Costs associated with service provision that is not funded by the Department. For MOE, non-federal non-direct costs can be used as match.

Total Costs

All allowable costs of a program incurred by a contractor, including the Federal and non-federal share. Total costs do not include those paid by other sources that are not part of the approved budget, such as the U. S. Department of Agriculture (USDA). Total costs are net of applicable credits, such as refunds and rebates.

Volunteer

An individual providing a service which is necessary to the operation of the DHS funded program at no cost to a Contractor.

Allowability

Factors affecting the allowability of matching expenditures (whether cash or in-kind) are the same as for Federal expenditures in that the costs must be reasonable, allocable, and necessary for the accomplishment of the project objectives and are allowable under the applicable cost principles. (OMB Circulars A-21, A-87, and A-122).

Match received from Federal sources is not allowable.

Cash Match

Cash match can consist of state or local funds, or private or corporate donations. It cannot include funds received from any Federal source except as defined in specific statutory language. The match is counted when expended, not when received. A contractor may provide matching in the indirect cost category by reducing the allowable charges to the grant per the indirect cost rate as approved in the indirect cost agreement. Contractors must be aware that this allowability is subject to the 15 percent administrative cost limitation.

Documentation of Match and Match Sources:

All matching contributions must be verifiable from the contractor's records. This includes the source and application of cash match, services received, and donations of supplies and equipment.

The use of volunteer time as match must include the establishment of a wage scale based upon the contractor's internal scale or prevailing wages in the area. Time sheets must be used to document hours contributed to the program. These time sheets must follow the same standards of documentation as employee time and attendance records, and must include:

- Volunteer's name.
- The dates, including year, the volunteer provided services.
- The duration of time the volunteer provided services to the program.
- The volunteer's signature.
- The signature of the volunteer's supervisor.
- The volunteer activity.
- The rate applied to this activity.
- Total valuation for the time period.

Documentation should be maintained on a regular basis. Programs may choose to use a monthly time sheet for regular volunteers or daily time sheets for occasional volunteers.

Documentation for receipt of supplies and/or equipment should include a copy of a receipt issued to the donor. Information on the receipt should include a description of the item, an estimate of the current fair-market value of the item, the date received, and signatures of the donor and the recipient.

Volunteer Services:

Professional and technical personnel, consultants and other individuals such as parents may furnish volunteer services. Each hour of volunteered service may be counted if the service is an integral and necessary part of the program. To count the time of a volunteer as match, the volunteer must be providing a service to and not receiving a service from the program. The procedures for valuing volunteer services are in 45 CFR 74.23 and 92.24.

If a volunteer's time is being paid under another Federal grant, it may not be used for match. However, if a volunteer is paid from a grant that is funded by State and/or local and Federal sources, (e.g. 60 percent State/local and 40 percent Federal), part of the volunteer's time may be used as match. In this example, 60 percent of the costs may be used as match if the State/local funding is not already used as a match for the Federal funds. It may be necessary for the agency to contact the volunteer's funding agency to verify the funding status. A volunteer's time may not be counted as match for more than one grant.

Volunteer time valuation should include fringe benefits. For example, if the agency has an estimated 30 percent fringe rate, then 30 percent should be allocated to volunteer time. In this case if a volunteer provides \$100 of volunteer services (e.g. 10 hours at \$10/hour), the total valuation would be \$130 or $\$100 \times 1.3$.

For a volunteer's time to be counted as in-kind:

- The services provided by the volunteer would have to otherwise be allowable costs that would be purchased from a consultant or other individual or provided by salaried personnel.
- The duties of the individual must be controlled by the agency.
- The value of the service provided by the individual must be measurable and material.
- The value must be based upon the service provided by the individual. For example, a dentist who volunteers time to provide dental services to program participants, should have time valued according to normal compensation for the service provided. If the dentist chooses to volunteer as a volunteer in a different capacity, such as working in the classroom, his service should be valued according to the agency's current wage scale.

Consultants and other individuals may provide their services to a program at a reduced rate. The difference between this reduced rate and the amount normally charged by the individual may be used as in-kind. The Contractor should have a written agreement with the individual, which will document the reduction, and documentation should be maintained of the services provided. This may be in the form of an invoice or other Contractor developed form.

If it is impractical for the program to regularly provide transportation to the center, and the parent transports the child, the reasonable value of the transportation may be used as in-kind. Transportation provided by parents at their option for their convenience is not an allowable in-kind contribution.

The time spent by parents on fundraising activities is unallowable as match because fundraising is specifically unallowable under the OMB Cost Principles. However, expenditure of the proceeds is allowable when expended for allowable program costs.

Donations of Supplies

As defined in 45 CFR 74.23 and 92.24, the agency should value third-party donations of supplies at their current fair market value as determined by the agency, using sources such as the guide issued by the IRS. Generally, donations of supplies to be used as gifts, prizes and awards are not allowable. Value of such items can be counted as match only if the program would otherwise have had to purchase the items to implement the program objectives.

Donated Equipment (45 CFR 74.23(h) (2))

Equipment donated for use in a DHS funded program is defined as having a fair-market value greater than \$5,000 and a useful life longer than a year. Equipment donated for use in the program may be valued at the market value of the equipment at the time of the donation. Documentation for the receipt of the equipment must include the description of the equipment and should reference the proposed use in the program and the condition at time of receipt. Donated equipment used as match is subject to equipment regulations found at 45 CFR 74.34.

Donated Buildings (45 CFR 92.24(e) (2) (ii)) Title Passes to the Contractor

ACF does not allow the fair market value of donated buildings to be counted as cost sharing or match for Contractors subject to 45 CFR Part 92. Only depreciation or use allowances based on the property's market value at the time it was donated may be counted. These can be counted as match if not reimbursed as a direct or indirect cost.

Depreciation may be computed following any generally accepted method and is to be based on the acquisition cost of the building. The computation will exclude the cost of the land. Use allowance for buildings may be computed at an annual rate not to exceed two percent of acquisition cost.

Loaned Equipment or Space

Loaned equipment or space (e.g. the donor retains title) shall be valued at its current fair market rental rate.

Potential Disallowances

Failure to meet the non-Federal share requirement can have a severe impact on the Contractor. If it is determined that the requirement has not been met, the Contractor agency will be required to repay the total amount of the shortfall. This amount must be repaid by the Contractor agency from agency funds. Federal funds may not be used to repay the disallowance. The shortfall may be the result of a failure to accumulate the match, lack of documentation or incorrect valuation that results in a subsequent disallowance. While not required, it is advisable to accumulate extra match that may be used in this situation as replacement to avoid possible repayment.

Audit Requirements

Under the Single Audit Act, and OMB Circular A-133, auditors are required to assess internal control and compliance. In the area of non-Federal share, this includes assessing whether the Contractor provided the minimum amount of match required, that match allocated was allowable, and whether the Contractor appropriately valued and documented match sources.

To accomplish this, the auditor must:

- Verify that the required matching contributions were met.
- Ascertain the sources of matching contributions and perform tests to verify that they were from an allowable source.
- Test records to verify that the values placed on in-kind contributions (including third-party contributions) are in accordance with the OMB cost principles circulars, OMB Circular A-102, OMB Circular A-110, program regulations, and the terms of the award. Test transactions used to match for compliance with the allowable costs/cost principles requirement.

Guidance on Providing Incentives to Youth Participants

Non-cash incentives may be provided to youth participants in order to ensure the level of commitment that is needed to achieve the expected outcomes of the program.

Agencies must ensure the level of incentives is appropriate for the level of commitment that is needed for the participants to achieve the expected outcomes of the program. Funds may be used for non-cash incentives such as *gift cards, transportation passes, movie passes, and meals*. If gift cards or transportation passes will be provided, agencies must outline a plan to log them by serial number or card number, maintain them in a locked storage cabinet and obtain the signature and date of individuals upon receipt of the cards. If other forms of incentives are used, agencies must ensure that they capture the signature and date of individuals upon receipt at the time incentives are disseminated.

Funding may **NOT** be used to provide cash payments as incentives. **Agencies wishing to provide cash incentives to participants must use other funding sources.**

If the agency does not have an incentive tracking mechanism in place, they must use the form provided by the DFCS Afterschool Care Program.
