*no visit; **discharged from custody; ***out of state

male vs female

Trauma

Only 1 report of trauma, more than one year ago, in the group. Most were unknown or blank, and two reported “no trauma” ever.

Risk Factors

| | No/Unknown | Yes |
|----------------------------|------------|-----|
| Suicidal ideations | 30 | 0 |
| Homicidal | 30 | 0 |
| Aggression | 20 | 10 |
| Harm to Self | 28 | 2 |
| Grave Disability | 28 | 2 |
| Impulsivity | 15 | 15 |
| Cognitive | 29 | 1 |
| Pain | 28 | 2 |
| Psychosis | 30 | 0 |
| Anxiety | 23 | 7 |
| Legal Trouble | 30 | 0 |
| No Risk Factors | 30 | 0 |
| Other Rsks (details below) | 24 | 6 |

| other risk details |
|--|
| ADHD; Inattention; Hyperactivity |
| H/O ADHD, Expressive Language Disorder, Learning Disorder NOS |
| h/o ADHD; Inattention; Hyperactivity |
| h/o disruptive behavior; inattention symptoms; easily distracted; previous restrain at school for verbal abuse x 2 |
| Hyperactivity; easily distracted |
| Inattention; Hyperactivity |

Developmental History

| | Don't Know | No | Yes |
|------------------------|------------|----|-----|
| preterm delivery | 7 | 10 | 4 |
| prenatal drug exposure | 8 | 3 | 10 |
| delay in milestones | 5 | 5 | 11 |

Psychiatric History

| | Don't Know | No | Yes |
|---------------------------------|------------|----|-----|
| any psychiatric history | 3 | 6 | 12 |
| psych hospital in past 3 months | 2 | 19 | 0 |
| psych hospital ever | 2 | 19 | 0 |
| psych outpatient | 9 | 1 | 9 |
| psychotropic medicine in past | 3 | 0 | 15 |

| past medication list (each row represents prescriptions that a child no longer receives) | | | |
|--|-----------|----------|--------------|
| Hydroxyzine | Risperdal | Zoloft | |
| Remeron | Risperdal | Seroquel | |
| Adderall | Ritalin | | (3 children) |
| Clonidine | Risperdal | | |
| Risperdal | Tenex | | (2 children) |
| Risperdal | Vyvanse | | |
| Stimulants - Names Unknown | | | |
| Risperdal | | | (2 children) |
| Clonidine | | | |
| Zoloft | | | |

* Note that 6 children have used Risperdal in the past. Another 7 had current prescriptions, so **13 out of 21 (with data) have experience with Risperdal (risperidone).**

| | Don't Know | No | Yes |
|---|------------|----|-----|
| Suicidal Thoughts | 1 | 19 | 0 |
| Suicide Attempt | 0 | 20 | 1? |
| Self Harm | 1 | 19 | 1 |
| Family History of Psychiatric Conditions* | 11 | 0 | 9 |

*Table of Family Psychiatric Conditions below

Also note: The Suicide Attempt 'Yes' and the Self Harm 'Yes' were not the same child. In the comment section of the form, a note declared uncertainty about the suicide attempt.
