OPPORTUNITIES GUIDE

**Georgia Department of Human Services**

STRONGER FAMILIES FOR A STRONGER GEORGIA

# How can you make a *difference?*

## **Dear Partner,**

The Department of Human Services (DHS) seeks to build Stronger Families for a Stronger Georgia through a variety of services and programs that assist Georgians with building safe and stable futures for their families. With a presence in all 159 counties, the Department touches the lives of more than 2 million Georgians each year.

DHS recognizes its vision of Stronger Families for a Stronger Georgia can only be achieved through partnerships with the communities it serves, and that it must help build communities that empower their most vulnerable residents.

Connecting with community partners and those seeking to serve their fellow Georgians is critical to the realization of our vision.

The document that follows serves as an entry point for organizations and individuals seeking to support their communities through volunteer service. It includes information about the Department's services and opportunities to engage communities through volunteering and in-kind donations.

This guide seeks to answer the question most often asked by those who want to serve the most vulnerable members of their communities—"how can we help?"—by offering options for building Stronger Families and a Stronger Georgia.

Sincerely,

### **Robyn A. Crittenden**

Commissioner,  
Georgia Department of Human Services

## About Department of Human Services

The Georgia Department of Human Services (DHS) was formed in July 2009 as part of the reorganization of the former Georgia Department of Human Resources, which served Georgia for more than 35 years. DHS delivers a wide range of services designed to promote self-sufficiency, safety and well-being for all Georgians.

The Department serves almost 2 million Georgians with nearly 9,000 employees and an annual budget of approximately \$1.8 billion in State Fiscal Year 2017 (SFY17). DHS comprises three divisions — the Division of Aging Services, the Division of Child Support Services and the Division of Family and Children Services — and several administrative offices, including the Office of Inspector General.

### Mission

Strengthen Georgia by providing individuals and families access to services that promote self-sufficiency, independence, and protect Georgia’s vulnerable children and adults.

### Vision

Stronger Families for a Stronger Georgia

### Core Values

- Provide access to resources that offer support and empower Georgians and their families.
- Deliver services professionally and treat all clients with dignity and respect.
- Manage business operations effectively and efficiently by aligning resources across the agency.
- Promote accountability, transparency and quality in all services we deliver and programs we administer.
- Develop our employees at all levels of the agency.

## Our Vision

The Department believes Georgians who are able should have an opportunity to be engaged in the success of their communities and in the realization of our vision of Stronger Families for a Stronger Georgia.

The guide that follows seeks to answer the question most often asked by those who want to serve the most vulnerable members of their communities: How can I help?

Service opportunities in this guide vary from a one-time donation to a Georgian in crisis or ongoing support of community endeavors. All opportunities are categorized based on the Department’s three service areas including Aging Services, Child Support Services or Family and Children Services.

To protect the safety of the individuals and families served by the Department, opportunities requiring direct contact with individuals or access to confidential information may require an application process and a background screening.

If an interest area is not listed, please reach out to the Department for more information or to discuss additional partnership opportunities. Contacts are listed for each service area.

## Child Support Services

The Division of Child Support Services (DCSS) enhances child well-being through the administration of financial and medical child support. Services include locating parents, establishing paternity and establishing, enforcing and reviewing support obligations.

Georgia is a national leader in supporting parents in their efforts to provide financially for their children. Our Fatherhood and Parental Accountability Court (PAC) programs help parents eliminate barriers to meeting their child support obligations and reduce enforcement actions that can include driver's license suspension and incarceration for nonpayment.

Parental Accountability Court (PAC) is a joint effort of the Department and Superior Court Judges to offer an alternative to incarceration and to help chronic non-payers of child support make regular payments. The program uses community resources and judicial oversight to address barriers that keep parents from meeting their support obligations. Each program, including the services provided to participants, is tailored to the needs of the local community.

Services offered include:

- Mental health
- Clinical assessments
- Substance abuse and drug treatment
- Job assistance / placement
- Coaching
- Mentoring
- Volunteer work opportunities
- Literacy training

Georgia recognizes that many noncustodial parents want to pay their court-ordered child support but lack the economic capacity to do so.

Through the Fatherhood Program, DCSS works with parents who are unemployed or underemployed and are consequently unable to pay their full child support obligations. The program connects parents with resources leading to jobs that pay above minimum wage, leading to greater self sufficiency and more emotional, parental and financial involvement in the lives of their children. Georgia has the only statewide Fatherhood program in the U.S.

Participants who have had their driver's licenses suspended or who are subject to license suspension for nonpayment of child support have the opportunity to regain driving privileges.

Services offered include:

- Job placement
- Short-term training
- Federal bonding through TOPPSTEP
- Volunteer services
- Resume writing
- GED classes
- Referrals for access & visitation
- Referrals for legitimation

### Family & Children Services

The Division of Family & Children Services (DFCS) investigates reports of child abuse; finds foster and adoptive homes for abused and neglected children and provides several support services to help families in need, including the Supplemental Nutrition Assistance Program (SNAP), Medicaid and Temporary Assistance for Needy Families (TANF).

Your support and donations are the small seeds of change that can make all the *difference* in the life of a child. We are so grateful for your kindness. You give but a little when you give of your possessions. It is when you give of yourself that you truly give. Thank you."
